Importance: High

Dear Dr. Sanchez,

Due to the new situation in connection with the pandemic COVID-19, we have suspended testing on the concerned heat equipment so far.

We will continue with the tests as soon as the general conditions allow it.

We are sorry for occurred complications

and remain with best regards...

Michal Dvoracek

Dear Dr. Sanchez,

SZU would wish to announce you the start of another testing project within the EPA.

Kindly see the enclosed **30-day-notification** by SZU.

Company: **KB Proton LLC**

Hopefully, this time correctly done.

Kind regards

Michal Dvoracek

Dear Dr. Sanchez,

Thank you for your e-mail confirmation and further points.

We did not mean to confuse the notification process, for we knew that we are supposed to notify you on the commencement of the tests, which we did by e-mail.

Here we must say that we were not aware of a special „Notification form“ we must use. Thanks for your sending it to us enclosed to your e-mail.

The application forms were not sent complete, but just with the key data and information on the manufacturer, the units and further methods. We thought it would serve as a useful information and more or less as a complementary source of facts.

This is the first time that we are processing this notification, and we can understand that have not provided you with the complete data or with the correct „forms“, as necessary.

By Monday (16h Sept) at latest, we will submit the given „Notification form“ filled in as instructed.

1. The approved test laboratory's name and physical and email addresses, and
2. The third-party certifier name and physical and email addresses.

Thank you for your understanding and appreciation of our efforts to advance in our knowledge for a better completion of all the steps.

Kind regards

Michal Dvoracek

Subject: RE: Notification by SZU_EPA-Approved Lab and Third-Party Certifier_Three-part project for Fröling Heizkessel (Austria)

Mr. Michal,

Thank you for your email earlier today. My understanding from your email is that Zsu is trying to notify the EPA of several scheduled certification tests. While the regulation doesn't require manufacturers to complete a specific form, it does require that they provide certain information. The form you have provided is confusing because it appears that you have taken the WH application and combined it with a 30-day notification. Per 60.534(g), "[t]he notification of testing must include the manufacturer's name and physical and email addresses, the approved test laboratory's name and physical and email addresses, the third-party certifier name, the model name and number (or, if unavailable, some other way to distinguish between models), and the dates of testing."

Missing from your notifications are the following:

1. The approved test laboratory's name and physical and email addresses, and
2. The third-party certifier name and physical and email addresses.

For your convenience, I have attached a 30-day form and a WH application. Please submit as soon as possible. If you have questions, please let me know.

Subject: Notification by SZU_EPA-Approved Lab and Third-Party Certifier_Three-part project for Fröling Heizkessel (Austria)
Importance: High

Dear Dr. Sanchez,

We should like to notify hereby the EPA on the commencement of testing determined to receive the EPA certification for our customer who declared his wish to proceed through SZU, i.e. an **EPA-Approved Lab** and **EPA-Approved Third-Party Certifier**.

The application parts as well as preliminary details of the manufacturer of the appliances to be certified are well specified in the Attachment.

The company (manufacturer) concerned: **Fröling Heizkessel- und Behälterbau Ges.m.b.H.**

The official **Wood Heater Application** will be signed by both the customer and the EPA-Approved Lab (SZU) once the tests have been finalized under EPA's obligatory rules.

Furthermore, we will also submit other certification documentation and affirmations to the application process.

We firmly believe that we are proceeding correctly, now, when we are notifying officially and formally the EPA of the launch of tests under SZU's competence.

Thank you in advance for your confirmation of this Request and our Notice accordingly.

Sincerely yours,

Michal Dvoracek, PhD.

Yours sincerely

Michal Dvořáček
